JAZZ/AAA

- * STATION is dedicated to jazz/Americana music.
- * But no city is as dedicated to music as New Orleans.
- * The soul of America is more vibrant on Bourbon Street than almost anywhere else in America or the world.
- * STATION wouldn't exist without the sounds of New Orleans.
- * If every artist who spent time in the French Quarter, the uptown jazz clubs, or the Warehouse district were removed from our library, I'm not sure how much music would be left.
- * So, while we are moved by the stories of those who survived hurricane Katrina, our lives will continue to be filled by the music that was and IS inspired by that region.
- * STATION will continue to provide you with information about Louisiana, Mississippi, and Alabama... and ways you can help.
- * And we will continue to fill the airwaves with music...
- * Support the music with a pledge to STATION.
- * Our dedication keeps the music alive.
- * Your support makes it happen.
- * Call right now.

JAZZ/AAA

- * For those of us who have frequented New Orleans, we are in mourning.
- * We remember the sounds of Tippi-tina's, The House of Blues or the street players in Jackson Square.
- * But have no fear... great cities always return.
- * And in the meantime, you can continue to enjoy the sounds of "Norlins" when you listen to STATION.
- * It might not be Cajun or Dixieland, per se, but many a singer or songwriter has been inspired by a trip 'down south'.
- * Help us keep the music alive by becoming a member of STATION. Call or go on line right now.

JAZZ/AAA

- * The pictures on TV are beyond words.
- * Homes and business covered in water. People traveling hundreds of miles for a clean bed, hot food, and dry clothes.
- * New Orleans is a glorious city.

* For those of you who have never been there, don't fret too much. We have no doubt that New Orleans will survive and thrive again.

* In the meantime, the music of "Norlins" lives every day at STATION.

* You'll hear singers and songwriters who were inspired by the area. Musicians who grew up in the Deep South and tell the stories in their lyrics.

* Public radio is one of the few places where you'll find this great music.

* If you appreciate the role STATION plays in serving and preserving this great art form, call today and pledge your financial support.

JAZZ/AAA

* Music is salvation.

* It soothes those who have lost family and property.

* It inspires us to help others.

* Music consoles and invigorates us.

* Music connects us all.

* STATION is proud to be a part of the public radio community that supports all types of music.

* We can do that because we are driven by a mission to preserve and protect music that is forgotten by others.

* We're doing our part... and I'm inviting you to do yours.

* Your financial contribution to STATION helps ensure that music is a part of our lives for years to come.

* Local artists, unique sounds, voices with stories to tell.

* Call now and let your voice be heard.

JAZZ/AAA

* If you've ever felt the passion of a blues guitar, marched to the clarinet of a Dixie Land Jazz procession, or just danced all night to a zydeco band... you then you know music is going to play a big part in the rebuilding of the Big Easy.

* In the meantime, you can continue to listen to and enjoy the wide variety of music we play right here on STATION.

* We're proud to make music the most important part of our programming.

* If you appreciate our commitment, call right now with a pledge.

Many thanks to Steven Yasko, GM, WTMD, Towson MD, whose his moving commentary following Hurricane Katrina inspired the text of the jazz scripts.
